

TSUNAMI

Like chains inside my head
What on earth is going on?
Monsters under my bed
Anxiety, I know

My dear, it's hard but I swear I tried
Leaving the past
Like a fucking drama
Yeah, all my fears are going too far
But I've seen it all before

I wanna break it all
Ride this wave inside me
I wanna break it all
Who'll save me from my own

Tsunami!

I sank a thousand times
Now I can swim for hours
Don't you dare drag me down
Or you'll capsize too

I'm fucking sick of it all, so sick of it all
I'm fucking sick of it all, so sick of it all
One nail in the coffin, living through nothing
Like the living dead

I wanna break it all
Ride this wave inside me
I wanna break it all
Who'll save me from my own

My sleepless nights no longer make sense
One Xanny, yeah, one more wandering soul
My sleepless nights no longer make sense

Tsunami!

So many waves, while the land is close
So many waves, hold fast, 'cause I'm about to sink

I wanna break it all
Ride this wave inside me
I wanna break it all
Who'll save me from my own

My sleepless nights no longer make sense
One Xanny, yeah, one more wandering soul
My sleepless nights no longer make sense

Tsunami!
